

HEAVY DUTY™ FLEET

Marathon is everything you want in a partner, with over 130 years of lubricant experience.

- **Premium Performance Quality** – We subject all our oils to the harshest million-mile tests. The results? We meet or outperform the higher priced competition. Our Radial Polymer Technology resists engine shear and maintains viscosity so it reaches all critical engine parts fast, even at low temperatures. Powerful detergents keep engines clean in longer intervals between oil drains.
- **Responsive Customer Service** – Have questions? You deserve fast answers from knowledgeable experts on a mission to support your business.
- **Competitive Pricing** – We believe reliable, superior quality products shouldn't mean inflated prices. If you want a brand that delivers dependable performance at surprisingly competitive prices, we are your brand of choice.
- **Wide Product Slate** – Your customers have diverse needs, and our vast product catalog features the right products to get the job done. From ATF to greases, we proudly offer the highest quality products to our customers.

Products endorsed by the API and ILSAC.
